COUNCIL OF THE CITY OF SAN DIEGO,
SAN DIEGO, CALIFORNIA.

Gentlemen:

It has come to our attention through the public press and from interested poultrymen that your Honorable body has been requested to pass drastic legislation with regard to keeping of poultry within the city limits of San Diego.

We hold no brief for anyone who is maintaining a nuisance or jeopardizing the public health but we submit that your Police Department and Health Department have ample legal authority for abating any such nuisance or public health menace and that it would obviously be unfair and unwise to unnecessarily penalize several hundred citizens for the offenses committed by one or two.

The poultry industry in this city and county is one of considerable importance and we would respectfully suggest that before you take any drastic action that ample opportunity be given the interested citizens to present their side of the question. Several hundred thousand dollars are invested in the poultry industry in this city and at least a portion of the livelihood of several hundred citizens is involved in this question.

Let's give the question the fair consideration to which it is entitled and not be carried away by a vaudville performance.

Yours very respectfully,

SAN DIEGO POULTRY ASSOCIATION, INC.,

BY

Manager.
