

July 31, 1947

Mr. Fred Sick, Clerk
City Council
Room 356 Civic Center
San Diego, California

To the City Council:

I urge the adoption of the proposed new dog ordinance requiring that dogs be enclosed or on leash at all times. There has long been a need for this regulation.

Very truly yours,

Mrs. Josephine Benson

Gentlemen,

From time immemorial,
the selection of the lawn
has been dogs' undeniable privilege.

Very truly yours,

George Ulrich

The Honorable City Council,
Civic Center,
San Diego, California.

Dear Sirs:

I am writing to request that you take favorable action on the proposed ordinance for the stricter control of dogs. For many years all attempts to control the nuisance have been blocked by the very vocal and sometimes fanatical minority of dog-owners. It is time that the long-suffering public should have some relief. I would be haled into court were I to disturb my neighbor's sleep night after night with unnecessary noise, but his dog has been allowed to keep me awake, and so far there has been no way for me to get redress.

San Diego is now a large city and, as such, should adopt the methods that other large cities use for the control of nuisances instead of continuing its old "small town" laxness. While it is true that you do not hear so often from the quiet average citizen, there are a great many of us who feel that our interests have been neglected for years. As I know from talking to people, the great majority prefer peace and quiet.

Very respectfully,

Henry J. C. Humphrey
