

1004 Hayes Ave
San Diego, 3. Calif.

Jan 12, 1944.

To The City Council,
San Diego Calif.

Gentlemen:-

If you will
Allow me also to speak a word about the dog
question. I see by the papers quite a few
object to placing any curb on stray dogs.

There is nothing to debate in this matter
if we just use common sense. I personally
have had plenty to convince any man that all
dogs should be kept from intruding, same as
other animals, as it is out ragous the way
dogs run loose on peoples property. Litter
up the yard, tear up cloths and destroy much
property that I cannot tell you here.

A dog leaped over the fence the other
day and tore a chicken to pieces in our yard
and the neighbors seemed to think it was
perfectly the thing to do. Dogs come for
blocks to litter up my neighbors yards. If
this was done in some Cities there would
just be a dog killing, thats all.

A dog has no more right to trespass on
people than a horse, Cow, People or anything
else. And just because this thing has gotten
to be odiously ~~un~~common business to let all
kinds run at large is NO reason whatever
that it should be allowed longer. Surly it
IS time to act.

Thanking you. Sincerely.

A VOLUNTEER and Tax payer.
