

San Diego Cal. May 19th 1914.

To the Honorable City Counsel of San Diego Cal.

Sirs:- We, The undersigned citizens ; residents and taxpayers of the vicinity of 19th. & Cst. Petition your Honorable Body to abate the nuisance that exist on the south side of E. between 19th & 20th st. at the Star Building Co. stables. The watering troughs are in the street and are allowed to over flow causing pools of stagnant water to form making a breeding place for mosquitoes that affect the surrounding neighborhood. Also; the west side of 19th street between C & B. streets is being used as a public dumping ground for wet garbage and other refuse.

We have appealed to the Board Of Health without getting any relief only a promise that they would attend to it ; ~~in the near future~~ *at once.*

We ask and demand that this be abated at once.
