

Gordon Flemmer

5342 Lauretta St North. S.D.

Feb 18th 29

Report to City Council,

Dead Horses Goat dogs and Cats are now being dumped at the dump bot of 8th St. where they are covered with tin cans & rubbish they are transported through the city streets uncovered & with flies feasting upon their bloody necks & noses this condition is dangerous to public health and should be immediately abated.

I ascertained the above to be a fact by seeing it last Monday two Garbage managers were present beside two men who brought the dead mule I saw a dead Goat & some dead dogs there stinking and covered with flies. A young negro named Dawettie was present when I visited the dump.

Gordon O. S. Flemmer

P.S Many of the dead animals have died of deadly & contagious diseases and are a menace to Public health -
