Mr. H. De Graff Austin
Councilman:

Dear Sir:

Let me be one to commend you on your efforts to have all dogs locked up. As a dog owner, and lover, I feel I have a right to voice my opinion.

Our own dog is never out of our yard and is very healthy and happy.

I live at the top of a rather steep hill and many times I have seen motorists here to stop on the hill, to keep from hitting a dog, which is dangerous for often they have a time getting started again. And dogs keep my front lawn dirty all the time, so for their safety and the property owners peace of mind I am all for keeping them locked up

Very truly
