GREGORY'S

IMPROVED ECONOMY INDEXES

— TO —

TAX CERTIFICATES OF SALE

— OF —

Lands and Town Lots.

COPYRIGHT JULY 30, 1890, BY A. E. GREGORY.

EXPLANATION OF LAND BOOK.

Arrange the Townships numerically; write the Sections, from one to thirty-six, in the spaces arranged for them on the left, the year and number of certificate in the upper, the description of land sold in the center and description of land redeemed in the lower spaces to the right. When land in a section has been sold for a large number of years, leave enough columns for each section to enter the sales for ensuing as well as past years.

OF TOWN LOT BOOK.

If sales of lots in any city or addition cover a period of ten or more years, leave one or more columns for each block, as may be deemed necessary. Write the year and number of certificates in the upper, lots sold in the center and lots redeemed in the lower spaces to the right, thus:

If lots are lettered the spaces will be found large enough to admit them. When the whole or part of a block is sold, All, E ½ N 100 ft., etc., may be written in the space for description, and when a number of lots are described in one certificate, they may be written thus: 1, 3, 7, 9, or 1 to 20 as the case may require. The spaces will be found large enough usually to contain all the lots described in a certificate; if not, use two spaces for one certificate.

Use black ink when sales are for State and County taxes, and red or other colored ink for City or municipal taxes. Sales to persons are designated by placing a dot in the space to the right of description, thus:

If sold to State, leave off the dot.

MERITS.

These indexes, when properly arranged, will cover the sales of forty or more years without carrying the section or block to another column.

By glancing along the spaces for description it may at once be seen whether the property under search remains unredeemed.

County Auditors and Tax-paying Agencies will find these indexes invaluable.
